

## EOC ADS-B out Volume Purchase

The Ercoupe Owners Club has been actively working with uAvionix for a discount with volume purchase of the uAvionix ADS-B products. The uAvionix SkyBeacon replaces the left navigation light and contains ADS-B out logic with built in antenna, WAAS GPS, red LED nav light and strobe light. It will use any mode C transponder, requires no airframe modifications, is a 10 minute install and is configured via a Smartphone APP. If you want the right navigation light to match there is a SkySensor option that contains green LED nav light, strobe, and ADS-B in to transmit traffic and weather via WIFI to Foreflight, iFly and some other tablet apps. For the majority of owners at the recent Mountain View fly-in who objected to removing the classic Grimes navigation lights uAvionix has another product called TailBeacon which puts the ADS-B out logic into a unit that replaces the white tail position light. SkyBeacon and SkySensor are available now for experimental and TSO approval will be forthcoming prior to Oshkosh. We have been assured that TailBeacon will have TSO approval before yearend.

With volume purchases of 10 to 50 units EOC will get a discount of 6.5%. Volumes over 50 units will get a discount of 13.75%. Prices to EOC before discount are \$1,849 for SkyBeacon and \$2,500 for the SkyBeacon / SkySensor bundle. TailBeacon price has not been set but it will probably be \$1,849 and we are

assured no more than \$2,000. These prices are before the EOC volume purchase discount. EOC will add \$10 for repackaging and shipment to you.

The only way you can get the discount is with the order placed by EOC and bulk shipments to EOC. A written commitment is required via email to [director@ercoupe.org](mailto:director@ercoupe.org) or letter to EOC Director P.O. Box 220 Pleasant Grove, AR 72567. Provide your name, email address, phone, mailing address, aircraft make and model plus N number. No money is required until your order is ready to ship but be advised that you are committing to the order.

EOC has elected to provide this deal to any Ercoupe owner even if not an EOC member. Some Ercoupe owners have other aircraft and those aircraft can also take advantage of the EOC deal. (If you can spell EOC you are eligible for the deal.)
